WHEN your doctor writes this on his prescription it is a direction to the Chemist to use his "best manipulative skill" in preparing it

By employing dispensers with the highest qualifications only, we insure that this "manipulative skill" shall always be used, and our pharmacies are equipped with every device to secure accuracy.

We use only the freshest and purest standardized drugs and our methods are entirely modern.

We have a 60 years record of prescriptions in our books.

Our charges are about 50% below ordinary dispensing rates but this does not mean that our dispensing is 'cheap' in quality. It is not possible to secure better or purer drugs, or higher skill than we use; even by paying higher rates.

We deal in many things, but the professional part of our business is the one that has first and foremost consideration.
